OBJECTIVE: Frontend Developer

PROFESSIONAL SUMMARY:

- Coded over 100 landing pages using **HTML**, **CSS**, and **JavaScript**, ensuring cross-browser compatibility and responsiveness. here is one example: <https://carzone-rho.vercel.app/>
- Developed and maintained scalable web applications improving application performance and maintainability by using reusable components and state management such as e-commerce platform using **ReactJS**, **NextJS**, **Tailwind CSS**, **PostgreSQL (Supabase)**, **Typescript** and component library called **Shadcn**. here is one example: <https://nexttflowers.vercel.app/>
- Integrated Rest APIs and third-party services to enhance web functionality and provide dynamic user experiences.
- Wrote clean, maintainable code with **Git** version control, supporting a collaborative development environment and ensuring easy rollbacks and feature tracking.
- Implemented responsive layouts using modern CSS frameworks like **Tailwind CSS** and **SASS**, resulting in faster development times and more consistent designs.
- I have worked with **WordPress**, installing and configuring themes and plugins for over 100 websites. I've also maintained websites using cPanel to manage hosting, set up sites, and handle server-related tasks.
- Basic experience with **NodeJS** and **PHP**, including working with APIs and backend tasks. While still gaining expertise, I've contributed to projects using these technologies for server-side development.

WORK EXPERIENCE

ClinicSoftware

IT Support and Web Programming Services

Location: UK / London (Remote)

october 2023 - current work

I help businesses build and improve their websites by creating and refining web pages with HTML, CSS, and JavaScript. I also edit email templates to make them more effective and visually appealing. On top of that, I work with WordPress—setting up themes, configuring plugins, and optimizing sites for a better user experience. I also create automation scripts to streamline processes and save time.

Eatery Club

Frontend Developer

Location: Ukraine / Odessa (On-Site)

november 2021 - may 2022

In November 2021, I started as an intern at Eatery Club in Odesa, Ukraine. My role focused on developing the user interface of their product using HTML, CSS, JavaScript, and React.js. This was my first commercial development experience, where I improved my programming skills and learned to work with Jira, as well as handle Git merge conflicts. I had the opportunity to work under a mentor who guided me through real-world development practices and industry workflows.

EDUCATION

O.S. Popov Odessa National College of Telecommunications

Bachelor's degree

Computer Science

Location: Ukraine / Odessa

2019 - 2023

ABOUT ME

I currently live in Romania and am a Romanian citizen. I speak four languages: English, Romanian, Russian, and Ukrainian, which helps me collaborate with diverse teams. At the moment, I'm working with a friend on building a SaaS project, where we focus on developing innovative solutions together. I enjoy collaborating with others, sharing ideas, and learning from my teammates to create high-quality products. I'm always eager to improve my skills and work in teams to solve real-world challenges.
